INDEPENDENT AUDITORS' REPORT

To the Board of Education
Reorganized School District No. IV
of Cass County, Missouri
Drexel, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of the Reorganized School District No. IV of Cass County, Missouri ("District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and each major fund of the District as of June 30, 2024, and the respective changes in modified cash basis financial position thereof, for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 1, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combined schedule of revenues collected by source – modified cash basis is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combined schedule of revenues collected by source – modified cash basis is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the budgetary comparison schedules but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2024, on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

In accordance with requirements of Missouri laws and regulations, we have also issued our report dated November 18, 2024, on our consideration of certain management’s assertions of the District. The purpose of that report is to describe the scope of our testing of certain management assertions related to requirements of Missouri laws and regulations pertaining to public school districts and the results of that testing, and not to provide an opinion on such assertions.

RECONCILIATION OF THE COMBINED STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
MODIFIED CASH BASIS
FOR THE YEAR ENDED JUNE 30, 2024**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ (242,299)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

| | | |
|----------------------|------------------|--------|
| Capital outlays | \$ 286,487 | |
| Depreciation expense | <u>(246,004)</u> | 40,483 |

Capital assets acquired by loans and finance leases are shown as an expenditure and revenue in the governmental funds. The revenue must be removed from the statement of activities; principal payments are applied to the liability; interest expense is recognized as it is paid.

| | | |
|---------------------------------------|--------------|-----------|
| Other financing source - loan payable | (220,000) | |
| Principal payments - finance leases | <u>2,128</u> | (217,872) |

The governmental funds report bond proceeds as an other financing source, while repayment of bond principal is reported as an expenditure. However, bond proceeds and repayment of bond principal are not included in the statement of activities because they are reported as changes in the balance of debt in the statement of net assets. The net effect of this difference in the treatment of general obligation bonds and related items is as follows:

| | | |
|--|------------------|----------------|
| General obligation refunding bond proceeds | (1,350,000) | |
| Repayment of bond principal | <u>1,655,000</u> | <u>305,000</u> |

Change in net position of governmental activities \$ (114,688)

**REORGANIZED SCHOOL DISTRICT NO. IV
OF CASS COUNTY, MISSOURI
NOTES TO THE BASIC FINANCIAL STATEMENTS**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

- A. Reporting Entity: The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. Financially accountable means the primary government is accountable for the component unit and the primary government is able to impose its will or the component unit may provide financial benefits or impose a burden on the primary government. In addition, component units can be other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District is not aware of any entity that would be required to include the District as a component unit.

- B. Basis of Presentation: The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

1. Government-wide financial statements: The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government. The statements present governmental activities generally financed through taxes, intergovernmental receipts, and other non-exchange transactions.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year end. The Statement of Activities presents a comparison between direct expenditures and program revenues for each program or function of the District's governmental activities. Direct expenditures are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. Fund financial statements: The Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances present the activities of the District segregated into funds in order to aid financial management and demonstrate legal compliance. Each fund is presented in a separate column.

**REORGANIZED SCHOOL DISTRICT NO. IV
OF CASS COUNTY, MISSOURI
NOTES TO THE BASIC FINANCIAL STATEMENTS**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

C. Fund Accounting: The District's accounts are organized on the basis of funds, each of which is considered to be a separate accounting entity with a set of self-balancing accounts which comprise its assets, fund balance, revenues, and expenditures. District resources are allocated to the individual funds based on the purposes for which they are to be spent and the means by which spending activities are controlled. The following funds are used by the District:

1. General (Incidental) Fund - Accounts for general activities of the District, including student activities and food service, which are not required to be accounted for in a separate fund.
2. Special Revenue (Teachers') Fund - Accounts for expenditures for certified employees involved in administration and instruction. It includes revenues restricted by the State for payment of teachers' salaries and employee benefits.
3. Debt Service Fund - Accounts for the accumulation of resources for the payment of long-term debt principal, interest, and related costs.
4. Capital Projects Fund - Accounts for the proceeds of long-term debt, taxes and other revenues designated for construction of major capital assets and all other capital outlay.

D. Basis of Accounting: The financial statements are presented in accordance with a modified cash basis of accounting, which is a basis of accounting other than Generally Accepted Accounting Principles (GAAP) as established by GASB. This basis of accounting involves modifications to the cash basis of accounting to report, in the statement of net position and statement of activities, cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such reported balances include capital assets and related depreciation, right to use assets and related amortization, investments, certain short-term and long-term liabilities arising from cash transactions or events and certain payroll expenditures described below in Note 1 (H).

This modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected and other accrued revenue and receivables) and certain liabilities and their related expenditures (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not arise from a cash transaction or event are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value.

If the District utilized accounting principles generally accepted in the United States of America, the fund financial statements for governmental funds would use the modified accrual basis of accounting. All government-wide financials would be presented in accordance with the accrual basis of accounting.

**REORGANIZED SCHOOL DISTRICT NO. IV
OF CASS COUNTY, MISSOURI
NOTES TO THE BASIC FINANCIAL STATEMENTS**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

E. Measurement Focus:

2. Government-wide financial statements: The Statement of Net Position and Statement of Activities are prepared using the total economic resources measurement focus within the limitations of the modified cash basis of accounting, as defined above. Accordingly, the District's capital assets and long-term debt are included in the Statement of Net Position.

3. Fund financial statements: The Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances are prepared using the current financial resources measurement focus within the limitations of the modified cash basis of accounting, as defined above. Accordingly, only current assets are shown in the Balance Sheet.

F. Pooled Cash, Cash and Temporary Investments: The District maintains a cash and temporary investment pool that is available for use by all funds except the Debt Service Fund. State law requires that all deposits in the Debt Service Fund be kept separate and apart from all other funds of the District. Interest income received is allocated based on a formula computed by the District. The District considers all investments with a maturity date less than 90 days after year end as cash equivalents.

G. Capital Assets: In the government-wide financial statements, capital assets are accounted for as assets in the Statement of Net Position. All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. A capitalization threshold of \$5,000 is used to report capital assets, which are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements 20 - 50 years
Vehicles & equipment 8 – 20 years

In the fund financial statements, capital assets are accounted for as capital outlays upon acquisition.

H. Payroll Related Expenditures: The salary payment schedule of the District allows for the payment of salaries over a twelve-month period. Consequently, the July and August 2024 payroll checks, written and dated in June 2024, are included in the financial statements as an expenditure paid in the year ended June 30, 2024. This practice has been consistently followed in the previous years.

I. Compensated Absences: Certified personnel are provided twelve (12) days of leave time per year. Total leave days may accumulate to 40 days total. Certified employees working less than 1.0 FTE will accumulate leave in an amount directly proportional to the working time frame. Salary deductions will be made for all absences which are not covered by the various policies. Teachers shall be paid \$20 per day for unused accumulated sick leave over the accumulated total days. Upon retirement, certificated personnel are paid \$40 a day with six to ten years of service in the district and \$50 a day with more than ten years of service in the district for any time they have banked. Three certified staff members are eligible for retirement for a potential cost to the district of \$3,325.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

I. Compensated Absences (continued):

Non-Certified personnel are provided nine (9) days leave time per year. Total leave days may accumulate to 30 days total. Salary deductions will be made for all absences which are not covered by the various policies. Upon retirement, Non-Certified staff is paid \$10 a day for any time they have banked only if requested and approved by management.

J. Net Position: Net position in the government-wide financial statements represents the difference between assets and liabilities, and are reported in three categories:

1. Net investment in capital assets consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.
2. Restricted net position consists of net position with use constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or bond covenants. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
3. Unrestricted net position consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

K. Fund Balances: The fund financial statements present fund balances by classification based on the extent to which the District is bound to honor constraints on the specific purposes for which the funds may be spent. The following classifications are used to describe the relative strength of these constraints:

1. Nonspendable – amounts that are either not in spendable form, or legally or contractually required to be maintained intact.
2. Restricted – amounts constrained to specific uses by external groups such as creditors, grantors, or contributors; or by laws and regulations of other governments.
3. Committed – amounts constrained to specific uses by the District itself, using its highest level of decision making authority, the District's Board of Education. Commitments may be established, modified, or rescinded only through resolutions passed by the District's Board of Education.

**REORGANIZED SCHOOL DISTRICT NO. IV
OF CASS COUNTY, MISSOURI
NOTES TO THE BASIC FINANCIAL STATEMENTS**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

K. Fund Balances (continued):

4. Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that the District intends to use for a specific purpose. For all funds other than the General Fund, this includes any remaining funds not otherwise classified, as they are assigned to the purposes for which the fund was established. For the General Fund, the assignment can result from intent expressed by the District's Board of Education or by District administrators to which the Board of Education delegates the authority.
5. Unassigned – amounts that are available for any purpose. Positive amounts are reported in only the General Fund. Negative unassigned fund balances are reported for all other governmental funds where the nonspendable, restricted, and committed fund balances exceed the total fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the District applies restricted funds first. When an expenditure is incurred for which committed, assigned, and/or unassigned fund balances are available, the District first applies committed funds, then assigned funds, and finally unassigned funds, as needed.

- L. Use of Estimates: The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from these estimates.
- M. Non-exchange Transactions: Non-exchange transactions in which the District receives value without directly giving equal value in return include property taxes, grants, entitlements, and donations.
- N. Budgetary Accounting: The District follows these procedures in establishing the budgetary data reflected in the financial statements:
 1. In accordance with Chapter 67, RSMo, the District adopts a budget for each fund.
 2. Prior to July, the superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
 3. A public hearing is conducted to obtain taxpayers' comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
 4. Prior to July 1, the budget is legally enacted by a vote of the Board of Education.

OF CASS COUNTY, MISSOURI
NOTES TO THE BASIC FINANCIAL STATEMENTS**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

N. Budgetary Accounting (continued):

5. Subsequent to its final approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the financial statements.
6. Budgets for District funds are prepared and adopted using the cash basis of accounting (budget basis). The budgetary comparison schedules presented have used the modified cash basis of accounting described in item (D) above as this basis is substantially the same as the cash basis of accounting.

O. Program Revenues: Amounts reported as program revenues include 1) charges to students or others for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. All other governmental receipts are reported as general receipts. All taxes are classified as general receipts even if restricted for a specific purpose.

P. Change in Accounting Principles: For fiscal year 2022, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. At June 30, 2024, there were no material finance leases for right-to-use assets.

For fiscal year 2023, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITA)*. GASB Statement No. 96 defined a SBITA as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. Under this Statement, a government generally should recognize a right to use subscription asset—an intangible asset—and a corresponding subscription liability. At June 30, 2024, there were no material SBITAs.

2. RETIREMENT PLAN:

A. Summary of Significant Accounting Policies:

The District participates in the Public School Retirement System and the Public Education Employee Retirement System (PSRS and PEERS, also referred to as the Systems). The financial statements of the District were prepared using the modified cash basis of accounting. Therefore, member and employer contributions are recognized when paid and the District's net pension liability, deferred outflows and inflows of resources related to pensions are not recorded in these financial statements.

**REORGANIZED SCHOOL DISTRICT NO. IV
OF CASS COUNTY, MISSOURI
NOTES TO THE BASIC FINANCIAL STATEMENTS**

2. RETIREMENT PLAN (continued):

B. Plan Description:

PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of the Systems, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the State of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989. The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Sections 169.070 (9) RSMo, known as the "2/3's statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

PEERS is a mandatory cost-sharing multiple employer retirement system for all non-certified public school district employees in Missouri (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of PSRS must contribute to PEERS. Employees of the Systems who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the Systems were found in Sections 169.600 through 169.715 and Sections 169.560 through 169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of PSRS.

C. Benefits Provided:

PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Due to the passage of Senate Bill 75 (HCS/SS/SB 75), effective August 28, 2023, members who retire with 32 or more years of service will have their benefit calculated using a 2.55% benefit factor. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55.

Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

2. RETIREMENT PLAN (continued):

C. Benefits Provided (continued):

PEERS is a defined benefit plan providing retirement, disability, and death benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary benefit until reaching minimum Social Security age (currently age 62), which is calculated using a 0.8% benefit factor. Actuarially age-reduced retirement benefits are available with 5 to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

A Summary Plan Description detailing the provisions of the plans can be found on the Systems' website at www.psr-peers.org.

D. Cost-of-Living Adjustments ("COLA"):

The Board of Trustees has established a policy of providing COLAs to both PSRS and PEERS members as follows; if the June to June change in the Consumer Price Index for All Urban Consumers (CPI-U) is less than 2% for one or more consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted. If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted. If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted. If the CPI decreases, no COLA is provided.

For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

E. Contributions:

PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2022, 2023, and 2024. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

**REORGANIZED SCHOOL DISTRICT NO. IV
OF CASS COUNTY, MISSOURI
NOTES TO THE BASIC FINANCIAL STATEMENTS**

2. RETIREMENT PLAN (continued):

E. Contributions (continued):

The District's contributions to PSRS were \$249,849, \$282,763, and \$287,333, respectively, for the years ended June 30, 2022, 2023, and 2024.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal years 2022, 2023, and 2024. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The District's contributions to PEERS were \$35,340, \$43,297, and \$33,113, respectively, for the years ended June 30, 2022, 2023, and 2024.

3. CASH:

State statutes require the District's deposits be insured or collateralized in the name of the District by the trust department of a bank that does not hold the collateralized deposits. As of June 30, 2024, all bank balances on deposit are entirely insured or collateralized with FDIC insurance or securities. Cash in the debt service fund of \$243,769 is restricted for debt service payments. Cash in the capital projects fund of \$19,300 is restricted for capital assets.

4. INVESTMENTS:

The District's investments at June 30, 2024, consisted of the following:

| <u>Investment Type</u> | <u>Maturity</u> | <u>Balance</u> |
|---|-----------------|------------------|
| Pro-rata shares of investment contracts with BOK Financial | | <u>\$ 90,365</u> |

4. INVESTMENTS (continued):

A. Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy mandates structuring the investment portfolio so that investments mature to meet cash requirements for ongoing operations thereby avoiding the need to sell investments on the open market prior to maturity.

B. Investment Contracts with BOK Financial: The District funds on deposit with BOK Financial, which are invested in investment contracts with credit providers whose unsecured long-term debt is rated at the time of such agreement in either of the two highest rating categories by a nationally recognized rating service, in accordance with Section 165.051 and 360 of the Missouri Revised Statutes through the Missouri School District Direct Deposit Program. Each District investing in the program owns a pro-rata share of each investment which is held in the name of the fund. Fair market value approximates cost as the District has a pro-rata share of the fund.

5. TAXES:

The counties in which the District is located collect property tax and remit it to the District. The District also receives sales tax collected by the state which is remitted based on eligible pupils.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. All unpaid taxes become delinquent January 1 of the following year. The assessed valuation of the tangible taxable property for the calendar year 2023 for purposes of local taxation was as follows:

| | \$ 5,915,720 | \$ 22,633,944 | \$ 28,549,664 |

For the calendar year 2023, for purposes of local taxation, the tax levy per \$100 of assessed valuation was \$5.2198 adjusted to \$5.2198 for estimated real estate and personal property tax collected, as follows:

| <u>Fund</u> | <u>Unadjusted</u> | <u>Adjusted</u> |
|--------------|-------------------|-----------------|
| General | \$ 4.1526 | \$ 4.1526 |
| Debt service | 1.0672 | 1.0672 |
| | \$ 5.2198 | \$ 5.2198 |

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2024, aggregated approximately 101.42% of the current assessment computed on the basis of the levy as shown above for the calendar year 2023.

6. RISK MANAGEMENT:

The District is exposed to various risks of loss to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Missouri School Insurance Council (MUSIC). MUSIC is a public entity risk pool operating as a common risk management and insurance program. The District does not pay premiums to purchase insurance policies but pays an assessment to be a member of the self-sustaining risk sharing group. Part of the assessment is used to purchase excess insurance for the group as a whole. The pooling agreement requires the pool to be self-sustaining. The District believes that it is not possible to estimate the range of contingent losses to be borne by the District. Settled claims have not exceeded insurance coverage in any of the last three years. There were no significant reductions in coverage compared to the prior year.

12. COMMITMENTS AND CONTINGENCIES:

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2024.

The District offers post-retirement healthcare benefits to all employees who retire from the District. Retirees and their dependents may obtain coverage by paying required premium rates. The District does not pay a portion of the required premium rates for retirees; however, the premiums paid by the District for active employees are based on combined active and retiree experience, so an implicit subsidy exists. Under the District's modified cash basis of accounting, no liability for this subsidy is included in the financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education
Reorganized School District No. IV
of Cass County, Missouri
Drexel, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the District, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 18, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
